<u>technical data:</u>

type	SKA-AG5-Li-1
name of gearbox	EtaCrown 52
motor designation	BCI4240
voltage	24V
output speed	3100/min
torque	5,55Ncm
gearbox producer	Zeitlauf
reduction	i = 1:60
max. nominaler torque	2,7Nm
nominal pull force	108N
pinion	T5/32
drive means	toothbelt RPP5/15, maximum load: 700N, safety factor for breaking stress > 4

The control has a sensitivity control. The door is movable by hand with > 400N.
Operation in hold-to-run mode or automatic mode, low energy drive according to EN 16005.
